

“
With the help of a SkillsFuture SME Mentor, I developed training programmes to help our employees perform better. Since then, staff turnover was reduced and customer service levels improved. In developing our employees, we are contributing to business growth.

”
Lilian Teoh
Learning and Development Manager, Han's

Enhance HR capabilities. Grow your business.

Lilian Teoh noticed that new employees were taking longer than expected to adjust to the job demands. Delivering consistent services was a challenge.

Lilian sought help from Enterprise Singapore's SkillsFuture SME Mentorship Programme. The mentor helped her roll out an orientation

programme, hands-on training and job shadowing for new employees.

This has helped new employees integrate faster into their respective teams, improved service consistency and reduced staff turnover. Developing their employees has directly contributed to Han's growth.
