WHO WE ARE

The Institute for Human Resource Professionals (IHRP) is the HR professional body, set up by the tripartite partners: the Ministry of Manpower (MOM), the National Trades Union Congress (NTUC) and Singapore National Employers Federation (SNEF). IHRP has the goal of setting the HR standards of excellence and enabling human capital development in enterprises. Through the IHRP Certification, IHRP aims to enhance the competencies of HR professionals, as well as create developmental and professional pathways for them. This will professionalise and strengthen the HR practice in Singapore, allowing HR professionals to be key enablers in their organisations. Our chairperson and 14-member board of directors come from diverse backgrounds.

1. BRAND STRATEGY

Our brand is who people think we are. It is the set of expectations, benefits, emotional and rational associations that, taken together, occupy the minds of our stakeholders. A strong brand for us, is an asset that inculcates stakeholder loyalty, enhances credibility and establishes us as the voice of HR.

This is a guide for active and purposeful brand management so that our stakeholders perceive us as we want them to.

RECOMMENDED TONE

WHY IHRP?

Against the backdrop of rapid business disruption, it is essential that organisations develop their human capital, so they can be future-ready and thrive amid economic shifts. HR is the enabler that will help organisations rise to meet this challenge. But for it to be successful, HR must itself be future-ready. It must focus on maximising human capital and contribute to business growth. IHRP aims to equip HR professionals and their organisations with progressive and forward-looking people practices to meet this challenge.

The invisible ‘i’ is a subtle expression that the institute exists for HR professionals. The stylised brushstrokes of the logo mimic progressiveness, agility and adaptability of HR professionals for the future.

For colours, blue is contemporary and inspires trust. The golden yellow ties back to the gold standard that IHRP wants to set and the grey projects stability and impartiality. This translates into a dynamic core identity which evokes a sense of innovation.

2.3 LOGO RULES

CLEAR SPACE AROUND LOGO

To ensure visibility of the logo, clear space is the minimum area surrounding the logo which must remain clear of any other visual elements or text.

This clear space around the boundary of the logo is based on 0.5x, half the width of the letter 'p' from the logo. Where possible, create more clear space than the minimum requirements, but never less.

MINIMUM SIZE

Minimum size specifications ensure that the logo remains clearly legible in all applications and all methods of reproduction.

To ensure legibility of the logo, it is recommended that the logo should not be reproduced smaller than the minimum height of the letter "h", which is 10mm.

BRAND IDENTITY

INCORRECT APPLICATIONS OF THE LOGO

Incorrect use of the logo can weaken the integrity, impact and consistency of it. Please be careful not to rearrange the components of the logo or change its proportions in any way.

To ensure high quality results, carefully follow the recommendations set out in these guidelines.

Do not distort the logo

Do not place the logo at an angle

Do not alter the placement or size of the logo elements

Do not place the logo on a detailed image

Do not alter the colour of the logo

Do not crop into the logo

ABOUT THE IHRP CERTIFICATION

The IHRP Certification is intended as a testament to your operations, professional skills and experience.

Developed through extensive consultation and benchmarked against international standards, the IHRP Certification is an industry-recognised mark of quality that acknowledges your mastery of future-ready competencies.

This raises the bar of the HR profession as the certification assesses your knowledge and experience against the HR Body of Competencies (BOC), which are requisite skills and attributes required to excel in your role.

The IHRP Certification offers 3 stages that encompass a holistic developmental journey.

IHRP CERTIFICATION LEVELS

Various certification levels have been tailored for specific role profiles, to ensure the most professionally relevant credentials.

Professional Certification Levels and Corresponding Role Profiles

You are eligible to apply for IHRP certification if you are an existing HR professional and have:

- At least 2 years of HR-related work experience at the appropriate level of proficiency.
- Successfully completed 150 hours of structured HR-related educational training.
- Definitive compliance to the IHRP Code of Professional Conduct.

3 COMPETENCY AREAS TO BE ASSESSED

As a HR professional of the future economy, you will need expertise and knowledge in not only developing human capital but also in contributing to business growth. The 3 areas of competencies in the certification framework are designed to prepare you for this role, and they are:

HR Functional Competencies

These competencies are required for HR professionals to successfully deliver their functional role, which cover activities undertaken across the people management lifecycle.

HR Mindsets and Behaviours

These competencies reflect the way HR professionals think and behave as they approach their HR work, and are essential to manage work-based situations.

With support from the Ministry of Manpower (MOM) and Workforce Singapore (WSG), the development of the National HR Professional Certification Framework (IHRPCF) was driven by a rigorous National HR Certification Taskforce. As part of the rigorous process, more than 500 HR practitioners and business leaders from organisations ranging from MNCs, SMEs, and the public sector were studied in the validation of the competency framework. IHRPCF has now been renamed the IHRP Certification.

BRAND APPLICATIONS

3.10 PRESENTATION TEMPLATE

As PowerPoint presentations are an important component of IHRP's communications kit, well designed templates that are on-brand are a necessity.

These are slides created for the corporate PowerPoint® template. They include title, divider and content slides. These can be mixed and matched to create pace and variety.

Be mindful that a text-heavy slide can end up looking crowded and overwhelming, making it difficult to read or present.

BRAND APPLICATIONS

3.11 ELECTRONIC DIRECT MAILER (EDM)

An electronic direct mailer is a platform that uses email as a tool to communicate with our stakeholders. The eDM grid illustrates how text, imagery, navigation buttons and graphic elements can be integrated into a cohesive medium that is on brand. The Roboto typeface must be used for digital applications.

BRAND APPLICATIONS

3.12 WEB BANNER

Web banner ads are used to promote the brand on web-based platforms. Due to limited exposure, use brand colours and concise text to help the banner ads stand out. Clearly communicate a single marketing message and call-to-action.

BRAND APPLICATIONS

3.13 PULL UP BANNER

The grid for the pull up banner is flexible, requiring only the specific placement of the logo, and the font sizes for the headline, sub-head and body copy.

Always leave a clear space of at least 450mm in height from the bottom of the banner as any information placed within that area will be difficult to read.
